

**REDI-SCAPES**

# COMPARATIVE ANALYSIS

a division of **REDI+ROCK** International LLC.

	NATURAL STONE	DRY CAST	REDI-SCAPES
Fully Engineered		X	X
Knob & Groove Construction			X
Ease of Installation		X	X
Natural Appearance	X		X
Dimensional Product		X	X
Native Colors	X		X

**THE CHOICE IS CLEAR:** Redi-Scapes walls combine the timeless beauty of natural stone with the structural benefits of architectural grade concrete. The result? A natural-looking wall system with engineered capabilities that is easy to install. With consistent heights and lengths on each block, Redi-Scapes doesn't require sorting and eliminates the expense of wasted product that is common with natural stone, saving you money on installation time and costs. Redi-Scapes can also be engineered and reinforced for taller or more technical projects.

With Redi-Scapes, you have all the design elements you need to coordinate your hardscaping project including retaining walls, freestanding walls, columns and steps. With Redi-Scapes you can build convex and concave walls, 90 degree corners, staircases, water features, planters and more. To find out more about Redi-Scapes or to start designing your project contact your local Redi-Scapes Manufacturer or visit [www.redi-scapes.com](http://www.redi-scapes.com) today.
